## Designer Contracts Ltd

## Risk Assessment

Title	Fitting Solid Wood Flooring- General Risk Assessment	Date Of Assessment	Tue 01 Jul 2025
Site	Designer Contracts Ltd	Location	All Sites
Risk Assessor	Laura Cross	Assisted By	Antony Maidens
Non-Employees Involved	-	People At Risk	Contractors, Employees
Task Description	General Risk Assessment		
Review Date	Wed 01 Jul 2026	Reviewer	Laura Cross

## <u>Hazards</u>

Hazard	Electrical
Risk Of Harm	Electric Shock
Existing Control Measures	<ol> <li>Ask for electricity to be turned off before cutting around any electrical wires (if present).</li> <li>Ensure tools are PAT tested annually and in accordance with HSE guidelines (Sub-Contractors have a signed agreement with Designer Contracts).</li> <li>Use 110v or battery operated tools where possible.</li> <li>Ensure correct tools are used for the job at all times.</li> </ol>

Hazard	Hazardous Substances
Risk Of Harm	Serious injury to self and others if not following the COSHH assessment correctly
Existing Control Measures	1. Ensure you have a copy of the relevant COSHH assessment for the product using alongside the laminate

Hazard	Manual handling
Risk Of Harm	Injury to self and others
Existing Control Measures	<ol> <li>Follow appropriate manual handling techniques at all times - see separate manual handling risk assessment. Ensure 2-man lift where necessary.</li> <li>Ensure safety boots are worn at all times</li> </ol>

Hazard	Working Alone
Risk Of Harm	No one may be aware if you are injured
Existing Control Measures	<ol> <li>If working alone please ensure you maintain hourly contact with Designer Contracts – if you need assistance please call the office immediately.</li> <li>Inform the site manager that you are working alone so that they are aware to check on you</li> <li>Please see separate lone working policy</li> </ol>

Hazard	Confined Spaces
Risk Of Harm	Dust generation from cutting product or COSHH products could cause harm to yourself or others.
Existing Control Measures	<ol> <li>Ensure adequate ventilation at all times.</li> <li>Dust generation on this activity is below the workplace exposure limit set by the HSE</li> </ol>

Hazard	Knife and Saw
Risk Of Harm	Cuts & Lacerations
Existing Control Measures	<ol> <li>Level 5 Cut resistance safety gloves and sleeves must be worn when cutting.</li> <li>Ensure operatives hand and body parts are kept clear of moving blade during operation</li> <li>Ensure constant eye contact is made with saw and item being sawn as distractions can cause you to loose control of equipment</li> <li>Condition of blades and knives to be inspected prior to use.</li> <li>Cut away from body and not across or on any body parts.</li> <li>Store in a protective holder or tool box when not in use. Sharps boxes to be used for all used blades.</li> </ol>

Hazard	Hammer / Mallet
Risk Of Harm	Strike from hammer
Existing Control Measures	<ol> <li>Check general state of hammer before use. Attention to be paid to handle condition and grip. Head of hammer is firmly attached to handle.</li> <li>Keep work area well lit and free from debris.</li> <li>Select a hammer that is comfortable to use and is the right size and weight for the task.</li> <li>Be aware of your surroundings and other workers.</li> <li>Use of correct PPE at all times.</li> </ol>

Hazard	Electric Stapler
Risk Of Harm	Projectiles and Electric Shock
Existing Control Measures	<ol> <li>Only to be used by trained operator. Use as per User Manual</li> <li>Keep personnel away whilst operating power tools and use of correct signage where applicable.</li> <li>When operating ensure stapler / nailer is in direct contact with the item to be stapled/nailed before commencing activity</li> <li>Do not over reach. Keep proper footing and balance at all times</li> <li>Regular inspection and cleaning should be carried out to ensure the tool is in good working order</li> <li>Disconnect the plug from the power source before making any adjustment, changing accessories or storing power tools. PAT testing to be carried out on appliance.</li> <li>Correct use of required PPE at all times.</li> <li>Only use 8mm &amp; 10mm Staples</li> </ol>

Hazard	Electrical Saws, Door Cutters and Planer
Risk Of Harm	Electric Shock, Cuts & Lacerations
Existing Control Measures	<ol> <li>Do not expose tools to damp conditions, rain or water.</li> <li>Ensure PAT testing has been carried out as required.</li> <li>Regular cleaning and inspection to be carried out to ensure the tool is in good working order</li> <li>Remove any clutter from work areas to ensure a full range of movement and clear of obstructions.</li> <li>Stay alert. Do not use under the influence of medication, drugs or alcohol.</li> <li>Ensure correct PPE is worn at all times to limit exposure to heated air and surfaces, as well as any airborne plastic or debris.</li> <li>Make sure all factory fitted guards are attached prior to use</li> </ol>

Hazard	Laminate Cutter
Risk Of Harm	Cuts & Lacerations
Existing Control Measures	<ol> <li>Ensure the cutter is placed on sturdy and level ground before use</li> <li>Blades to be in good condition at all times with regular checks taking place</li> <li>Keep body parts away from blade when cutting</li> <li>Use of correct PPE at all times</li> </ol>

Hazard	Vacuum Cleaner
Risk Of Harm	Electrical & tripping
Existing Control Measures	<ol> <li>Checks to be in place for overall condition of hoover, cord and attachments.</li> <li>Ensure the equipment is switched off before plugging in or unplugging from power source</li> <li>Keep the cord length (if applicable) is kept to a minimum to avoid further hazards.</li> <li>Ensure PAT test is conforming to current standards.</li> </ol>
